

Services Officer

10 February 1949

Chief, FBIS

Commendation

1. Quoted herein is a paragraph from memorandum to Chief, FBIS from Chief, Mediterranean Bureau, dated 27 December 1948, Subject: Condition of Electronic Equipment Received in Cyprus.

"Electronic equipment received in Cyprus to date is in apparently undamaged condition. This is due mainly to the excellent manner in which it has been packed. All incoming equipment has inevitably received rough handling by unskilled native laborers in the process of unloading by lighter from the ship at Larnaca, transfer by truck to the station, and unloading at the station. This has been accomplished frequently under adverse conditions of weather and darkness, however, these adverse factors do not appear to have resulted in damage to the equipment."

2. It is requested that you commend all those personnel of your office responsible for packing, crating, and shipping of this equipment.
